Incredible Years Small Group Dinosaur Child Social Skills Group Leader
3 Day Workshop (Ages 4—8)

This 3-day workshop will present in depth the *Dina Dinosaur Child Social Skills, Emotional Regulation & Problem Solving Training for Children* designed by Dr. Webster-Stratton to help young children who have behavior problems. The program focuses on ways to promote children's emotional literacy, anger management, appropriate conflict management strategies, expected classroom behaviors, and positive social skills or friendship behaviors with other children and adults.

The workshop will cover methods for working with small groups of children including role play, rehearsal, video and live modeling, group discussion and small group activities. The intervention program is appropriate for use by therapists with small groups of children with behavior problems either in mental health centers as “pull out” programs in schools. The program has been shown to be effective in four randomized control group studies with families of children with Oppositional Defiant Disorder and Conduct Disorder. This curriculum uses Webster-Stratton’s book *Incredible Teachers: Nurturing Children’s Social, Emotional and Academic Competence* as the companion book for therapists.

**Presented by:**  
Jamila Reid, PhD.

Jamila Reid is a clinical child psychologist who worked at the University of Washington Parenting Clinic with Dr Webster-Stratton from 1997-2010. Currently, she is a trainer for the Child and Teacher Incredible Years Programs and travels around the world to offer workshops to new group leaders and to provide consultation and support to group leaders, mentors and researchers. In Seattle, she works at the Evidence Based Treatment Centre, offering Dinosaur School Treatment groups and consulting with parents and teachers of children with challenging behaviours.
